Drawings

1. Figures 3a, 3b, 11 and 12 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

Claims 1-7 are objected to because of the following informalities: Claims are referring back to the specification in form of referring to the drawings (as seen in the plan view). It is the claims that define the claimed invention, and it is claims, not specifications that are anticipated or unpatentable. *Constant v. Advanced Micro-Devices Inc.*, 7 USPQ2d 1064. Appropriate correction is required.

Allowable Subject Matter

2. The following is a statement of reasons for the indication of allowable subject matter: The prior arts made available do not teach or fairly suggest, alone or in combination, a Coriolis flowmeter including a fixing member and the first inlet portion and the second inlet portion of the flow tube being arranged in a non-parallel state such that a distance there between increases with increasing departure from the fixing member; and that the first outlet portion and the second outlet portion are arranged in a non-parallel state such that a distance there between increases

with increasing departure from the fixing member, the first and second inlet portions and the first and second outlet portions being fixed so as to be arranged symmetrically, and wherein a distance between respective driven portions of the first and second curved tube portions is smaller than a distance between respective portions thereof continuous with the driven portions.

Conclusion

3. This application is in condition for allowance except for the following formal matters:
Minor informalities indicated in above paragraphs.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
